## SAVE THE DATE

*The Government of Mali and UNICEF cordially invite you to join a lunchtime side event:*

**EVERY CHILD ALIVE:  
Ending preventable newborn deaths through clean, functional health facilities within the reach of every mother and baby**

Most newborn deaths are *preventable*: with sometimes simple interventions and supplies like having soap and clean water for better hygiene practices (SDG 6) and reliable energy at health facilities in reach of mothers as they prepare to give birth (SDG 7). Please join us for an exciting side event bringing together different actors and innovators that aim to bring an end to the tragedy of preventable newborn deaths.

Speakers will include: UNICEF Executive Director Ms. Henrietta H. Fore, the Governments of Mali, Ethiopia and the United States, Yale University, Global Water 2020 and LIXIL.

**When:** 16 July 2018 1:15-2:30 pm

**Where:** Japan Society, 333 East 47th Street

**RSVP by 13 July [here](#) or contact Vera Schroepel: [vschroepel@unicef.org](mailto:vschroepel@unicef.org)**

*Light buffet lunch served beginning 30 minutes before the start of event*
