

Call for Applications: Bridge CRPD-SDGs Module 3: Article 11 on Situations of Risk and Humanitarian Emergencies

Focused on conflict and displacements, for participants from OPDs and humanitarian actors from Middle East and North African region, particularly from Algeria, Egypt, Iraq, Jordan, Lebanon, Libya, Palestine, Sudan, Syria, and Yemen.

Background

The barriers and the discrimination faced by persons with disabilities in everyday life are greatly amplified when communities are disrupted as a result of crises such as conflicts or disasters. The obligation of states to ensure the protection and safety of persons with disabilities on an equal basis with others in such situations is enshrined in Article 11 of the United Nations Convention on the Rights of Persons with Disabilities (CRPD).

Following the adoption of the Sendai Framework in March 2015, and the launch of the Charter on Inclusion of Persons with Disabilities in Humanitarian Action at the World Humanitarian Summit in May 2016, there has been significant movement towards addressing the inclusion of persons with disabilities in situations of risk and humanitarian emergencies. In 2019, the UN Disability Inclusion Strategy (UNDIS) was launched, which applies across all pillars of work of the UN system, including in humanitarian contexts. Further, there is a growing body of standards and guidance including the Inter-Agency Standing Committee Guidelines on Inclusion of Persons with Disabilities in Humanitarian Action¹, and the Guidance on Strengthening Disability Inclusion in Humanitarian Response Plans².

Despite this substantial progress, challenges remain to implementing these standards and guidance in practice. A key priority is therefore to strengthen leadership and participation of local

organizations of persons with disabilities (OPDs) in humanitarian action, as part of a broader localization agenda. This training aims to address this priority.

Disability Reference Group

In 2020, the Reference Group on Inclusion of Persons with Disabilities in Humanitarian Action (the DRG) was established as a platform fostering cooperation between UN, International Agencies, NGOs and Organizations of Persons with Disabilities (OPDs) in promoting disability inclusive humanitarian response, including, implementation of key guidance materials, such as the IASC Guidelines on Inclusion of Persons with Disabilities in Humanitarian Action. The DRG currently has over 300 members and is an important network for learning and exchange. The DRG has three main pillars of work, including influencing global processes; operationalizing the IASC Guidelines through technical support to humanitarian actors; and supporting OPD leadership and participation in humanitarian action. These pillars of work are advanced by the three co-chairs- IDA, CBM Global and UNICEF and by a number of working groups led by various entities.

It is this collaborative partnership approach that this training will aim to further strengthen and reinforce, with a particular focus on supporting partnership between OPDs and humanitarian actors at country and local levels, including through implementation of a Bridge CRPD-SDGs Module 3 training, focusing on humanitarian action.
