Step-by-step guide for COSP registration

The United Nations has introduced a new platform for managing NGO registration to meetings and events at UN Headquarters in New York. The platform is called **Indico**, and it replaces the registration functionality of the previous system, CSO-Net. Indico has its own secure password engine, and the username and password for the old CSO-net will not work for Indico. Representatives will be able to create a new password when they sign up an account in Indico.

The main difference between the new Indico system and the old CSO-net is that in Indico, representatives register themselves individually, to increase online security and privacy for each participant.

Once the representatives of an organization have registered for a conference in Indico, the organization’s Conference Focal Point will be able to see and approve their registrations. Upon approval of their registration by the Conference Focal Point of their organization, representatives will receive an automated email notification containing the official confirmation letter. Representatives will bring a print-out of the confirmation letter to pick up a UN grounds pass at the meeting or conference in New York.

* Please note that these instructions only apply to NGOs in consultative status with ECOSOC and Accredited NGOs to the Conference of States Parties to the CRPD (COSP).

This guide provides step-by-step instructions for participants on the following:

1. Creating your Indico account (page 2-3)
2. Activating your Indico account (page 4-5)
3. Registering for COSP (page 6-9)
4. Modifying a registration (page 10)
5. Additional information (page 11)

Please note that participation by civil society representatives in United Nations meetings and conferences is governed by the modalities of each event. **Registration in Indico does not guarantee participation in any specific event. The United Nations reserves the right to deny participation to any organization or individual at any time.**
